Tones of Note

Music proposal – Jenna & Zac – 21 March 2021

Your wedding is an intimate reflection of you and as such requires musical and creative attention. To authentically convey that feeling to the guests sharing in this momentous day, your musical input is invaluable.

Over the next months, we'll be working with you on your wedding soundtrack. Building on our experience of what works and what doesn't, we'll guide you in the repertoire selection process from guest arrivals to closing song.

Most of the suggested acts below are open to learning new repertoire, so if you've got something specific in mind, let us know. While we'll try to our best to accommodate you, we'll also be honest when we feel something won't work musically or is not possible.

---

Pre-drinks: A DJ is a good alternative to a live performer for pre-drinks, with the music during this period setting the tone for the rest of the night. Musically speaking, DJs have a broader range of styles and songs to choose from, allowing them to take the music where the guests want it to go. Ultimately this set must be upbeat, featuring songs that appeal to the majority of your guests while also representing your musical preferences.

This is achieved by playing a mix of classics from soul, jazz, and current popular music. To find out which songs from those genres most resonate, we've included a 90-minute sampler below. Please give it a listen and send us your feedback. We'll use that to curate the set.
